

PUBLICATION ETHICS STATEMENT

The Journal of Economy and Business of Faculty of Economics of University of Mostar (Zbornik radova Ekonomskog fakulteta Sveučilišta u Mostaru) complies with the highest publishing ethics standards, principles of the Code of Ethics of the University of Mostar as well as the Code of Conduct for Journal Editors.

Editor/ Editorial Board of the Journal of Economy and Business is responsible for the published in the Journal.

Editor/Editorial Board is responsible for the final decision on publishing the accepted papers for the Journal. The Editorial Board decides based on the estimated significance, originality, clarity of papers and opinion of at least two reviewers. Papers are subject of objective double-blind peer review. The Editor/Editorial Board constantly works on improving papers' quality, improving the Journal and complying with intellectual and ethics standards. The Editorial Board publishes Guidelines for Authors that are regularly updated.

Authors submitting manuscripts for publishing in the Journal of Economy and Business have to ensure that papers include reliable data (application of appropriate data processing methods, data accuracy etc.), the research results have to be published as original without manipulation and falsification and there should be transparency in the process and support for publishing paper as well appropriate identification of authors. Likewise, authors should cite relevant sources used in papers. Plagiarism of any kind represents serious violation of publishing behavior.

Reviewers help the Editor/Editorial board to make an Editorial decision as well as to an author to improve quality of the manuscript. Reviewers not qualified for the review of submitted manuscripts should notify immediately the Editor/Editorial board who will contact alternate reviewers. The same procedure should be taken if reviewers think that they will not be able to make review within the prescribed time limit. Reviewers have to be objective, check the citation of relevant sources in the paper, keep the confidentiality of submitted paper that is subject of review and have in mind to be excluded from the review process in the case of any conflicts.
